Relevant Experience

Engineer @ Pinecrest Police Department
May 2020 – Jan 2021 // Pinecrest, FL

▷ Involved with development team to develop and improve reactive web applications using various technologies (Angular, JavaScript, Java Spring, HTML, Git, VS Code) for community awareness and outreach. This allowed me to be tasked with writing code to develop and improve features on the frontend using JavaScript/Typescript (Angular), HTML5 & CSS3

IT Associate @ Elite IR
Oct 2013 – Mar 2020 // Deerfield Beach, FL

▷ Involved with improving company database such as Z-direct & Salesforce CRM with data loading. Collaborated with an IT team of professionals and assisted with troubleshooting various day-to-day issues for 100+ employees to ensure continuous productivity of the company. Maintained computer systems (Updating, decommission old systems) and instituting new systems and technologies.

Project(s)

Be on The Lookout (BOLO)
Web app built with Angular(v6), Node.js, Express, Spring Boot. This application was developed for enterprise use and is intended to be used for community awareness in the form of an outreach board for local criminal activity. My team and I developed and maintained this project while using an agile scrum methodology.

Interests

Coding, Traveling, Sports, Biking

Skills

Programming Languages
Java, JavaScript (ES6), TypeScript, HTML5, CSS3, SQL

Libraries & Frameworks
Angular, Node.js, Express

Tools & Platforms
Git, GitHub, VS Code, MySQL, Microsoft SQL Server

Working Knowledge
PHP, AWS

Education

Florida International University
2018 – 2020 // Miami, FL

Bachelor of Science in Computer Science

Broward College
2013 – 2017 // Coconut Creek, FL

Associates of Arts
